

PRIORITIES FOR CARE OF THE DYING PERSON LEARNING PATH FOR ALLIED HEALTH PROFESSIONALS

'One Chance to Get It Right' (The Leadership Alliance for the Care of Dying People (June 2014) set out the approach to caring for dying people in the last few days and hours of life identifying five Priorities for Care.

This learning path identifies core and additional recommended e-learning sessions for AHPs to enhance the quality of care for patients in the last days of life and support for their families. We have defined sessions which contain core content to support what AHPs need to know and do to provide good care for people who are dying. The sessions that the individual AHP needs to complete depends on how competent they are already with this area of practice.

CORE SESSIONS

Session No	Session Name
01_03	Benefits and risks of ACP to patients families and staff
02_07	Assessment of spiritual well being
