

## Rapid Access List of Resources

## Profile

I am a **Paediatric Nurse** or **Health Visitor**, working in the **Community**

I want to revise bronchiolitis signs, symptoms assessment & management.

## Time to complete

Fundamentals **1 hrs, 11 min**

Extension **0 hrs, 25 min**

## Fundamentals:

- 1** [The Decision Maker's Guide to Bronchiolitis Assessment](#) Web Blog 15 min  
Introduction to RSV.
- 2** [Baby with increased work of breathing \(RCUK\)](#) Video 1 min  
An at a glance resource describing mild bronchiolitis and management, ideal for prehospital and community or primary care practitioners.
- 3** [Healthier Together Video Clips of abnormal clinical signs in babies related to breathing](#) Video 10 min  
SKILL: Respiratory assessment - Various clips of respiratory distress
- 4** [Bronchiolitis Pathway Clinical Assessment / Management Tool for Children Younger than 1 year old with suspected Bronchiolitis](#) PDF 5 min  
A single page flow diagram for healthcare professionals for clinical assessment and management of children less than 1 year old with suspected bronchiolitis. **(NB: In 2021-22 we are expecting to see children with bronchiolitis up to the age of 2 years)**
- 5** [Measuring Capillary refill time in an infant and child](#) Video 1 min  
SKILL: Measuring cap refill time
- 6** [Fundamentals of Bronchiolitis presentation and management](#) Video 13 min  
What is Bronchiolitis, Anatomy & Physiology, Pathophysiology
- 7** [Lightening Learning Infographic on Bronchiolitis](#) Infographic 3 min  
Infographic for at a glance management of bronchiolitis
- 8** [Lung Sounds](#) Video 7 min  
A video describing auscultation and the physiology behind lung sounds including stridor, wheeze, pleural rub, crackles, rhonchi.
- 9** [Paediatric assessment in the primary care setting](#) Video 11 min  
**SKILL: Assessment.** A video looking at how to complete a top to toe assessment of a child in a primary care setting.
- 10** [Remote assessment pathway for Children under 1 with a cough](#) PDF 5 min  
1-page chart including green, amber, and red pathways
