Rapid Access List of Resources

Profile
I am a Healthcare Professional, working in the Emergency Department or Paediatric Ward
I want to refresh my knowledge about High Flow Therapy.

Fundamentals:

1. **High Flow Nasal Canula Oxygen Therapy, at a glance**
   - This infographic is a summary of evidence-based use of high flow. A visual ‘quick reference’ guide covering the basics to support clinicians in practice.
   - Infographic
   - Time: 2 min

2. **Setting up Airvo2**
   - For Airvo2 Users: A video that demonstrates how to set up the Airvo2 device.
   - Video
   - Time: 4 min

3. **Setting up Optiflow (OPN)**
   - For Optiflow users: A video that demonstrates how to set up the Optiflow device
   - Video
   - Time: 4 min

4. **Setting up Vapotherm**
   - For Vapotherm users: A video that demonstrates how to set up the Vapotherm device
   - Video
   - Time: 8 min

Extension Learning:

1. **High Flow Therapy – When and How?**
   - A resource for those who want to know more, includes signposting to further publications.
   - Web Blog
   - Time: 10 min

2. **High Flow Therapy – What’s the evidence**
   - A resource that critically appraises the evidence for High Flow therapy for bronchiolitis.
   - Web Blog
   - Time: 10 min

3. **Canula fitting guide – Fisher & Paykel**
   - A more in depth look at correct selection and fitting for the Fisher & Paykel interface.
   - Video
   - Time: 6 min
