

## Rapid Access List of Resources

**Profile**

 I am a **Healthcare professional**

I want to learn the basics of RSV and bronchiolitis

**Time to complete**

 Fundamentals **1 hrs, 56 min**

 Extension **2 hrs, 7 min**  
 + competency document

**Fundamentals:**

- 1** [Preparing you, your colleagues and your unit for a bronchiolitis surge \(RCEM\)](#) Text 15 min

A collection of suggestions from the Royal College of Emergency Medicine & Creative Commons (RCEM) based on Covid-19 and childhood respiratory illnesses to help prepare for a bronchiolitis surge, using some of the Australian data as an early warning.
- 2** [Lightning Learning Bronchiolitis](#) Infographic 3 min

An at a glance resource describing mild bronchiolitis and management, ideal for prehospital and community or primary care practitioners.
- 3** [Bronchiolitis - More than just a snuffly nose?](#) Video 38 min

This webinar covers the pathophysiology, presentation and diagnosis of bronchiolitis, including x-ray findings and investigations. It also includes risk factors for development of serious illness and evaluation of the effectiveness of specific interventions
- 4** [Overview of Bronchiolitis for Families and Carers](#) Text 10 min

This NHS webpage provides professional advice for families and carers of children who may have bronchiolitis. It includes an overview of causes, symptoms, diagnosis, treatment, complications and prevention. It also explains when to seek medical help if you think a child in your care is unwell.
- 5** [Fundamentals of Bronchiolitis presentation and management](#) Text 30 min

This web page provides videos, podcast and written information on the physiology and management of bronchiolitis of the child for those gaining initial knowledge in a healthcare setting
- 6** [Bronchiolitis guidelines \(DFTB\)](#) Text 5 min

Summary of the guidelines on managing bronchiolitis in a hospital setting. This includes 22 key recommendations on investigations and treatment strategies.
- 7** [Healthier Together: Clips of abnormal respiratory signs in children and infants](#) Video 10 min

A variety of clips showing grunting, recession, croup, head bobbing, abdominal breathing and a quick guide to counting respirations in a child and baby.
- 8** [Discharging babies with bronchiolitis from the Emergency Department](#) Infographic 2 min

This infographic from DFTB reminds of when we can discharge babies from the ED and Information we should be providing upon discharge
- 9** [Distraction in Action - Helping a Child During Medical Procedures](#) Video 3 min

A video showing different ways we can distract children and young people during painful or invasive procedures
